Description of Workcamp: Background/Project: Nepal is a beautiful mountainous country. More than 80 % of the population live in rural areas with over 35% of the population living below the poverty line. Access to proper health and sanitation facilities is often very limited and awareness of correct hygiene practices is low. Only 46% of the population has access to toilets, leaving 54% to practice open-air defecation.

Due to lack of awareness, the community site has to deal with environmental problems such as water pollution, air pollution, noise pollution, solid waste management, open defecation etc. Recognising these concerns, VIN organises camps to address these environmental and educational issues. It focuses on Workcamps/ short-term projects which include environmental protection, tree planting, working along with local partners and community people to spread health and hygiene awareness among the community people. The work will vary largely in the camps and will include some simple physical work.

The implementation of the Total Sanitation Project is expected to generate a significant improvement in the health and sanitation conditions of the community and protect the environment as a reduction in the occurrence of sickness within the community and an improved quality of life.

Our aim through this project is to construct toilets, create awareness among the people and to give them more instruments to feel confident and feel free to decide for their future, and for the future of a new generation. VIN cooperates with several local partners in assisting various government schools by creating awareness about the environment; health and hygiene; working with local schools in teaching basic English through creative learning methods; simple renovation activities like painting, cleaning or constructing toilets, tree planting etc.

Objectives: To construct toilets to the needy households, To involve the community and sensitize community/people about the Environment, Health & Hygiene problems, To educate and raise awareness on environmental issues to children and villagers. To collect garbage and educate on garbage management.

Work: Construction, education and awareness raising.

Location:

1. Tarakeshwar : Tarakeshwar municipality lies on Kathmandu District. It is around 10-15 km from main ring road to Balaju, Kathmandu covered with hills, fields and woods.

2. Okharpawa community: It is in Nuwakot District, which is 17 km from Kathmandu with fields, woods and hills.

Placement Support Process: Each volunteer is greeted and received by VIN local staff from the airport and dropped to local host family. The first day is the arrival day. The second day volunteers will receive a full day orientation at VIN office in Kathmandu. The placement orientation will cover, cultural tips, survival phrases on Nepali language, health tips, and project activities preparation and about VIN.

Then actual workcamp starts on from the day third. You will be always guided by a

Nepali camp leader and VIN supervisors will visit you time to time for follow up support. Should you have any concerns on the workcamp, you may always call us for immediate help. During or after the workcamp, our staff will take you a half day sight-seeing to cultural heritage sites. On the last day of the workcamp, you will submit a detailed work report, fill up an exit form and sit with VIN executives for exit interview and feedback session.

Accommodation: The volunteers will stay with the host family/hostel identified by VIN. The living facilities are simple and basic. Male and female Volunteers will share the same living area with separate rooms. There will be 2-4 persons in one room. Volunteers are required to sleep on the simple beds. Please bring your sleeping bag.

Language: Basic English should be spoken among participants

Participation Fee: The participation fee 200 Euros is to be paid on your arrivals at VIN Office or upon booking the placement by PayPal or bank transfer.

The Participation Fee Covers:

Food and Accommodation: Nepali Standard at a local host family & 3 meals a day

Transportation: Airport pick -up and pick up and drop to the working community site

A half day guided sight-seeing for the world heritage site of Kathmandu

Materials for the work-camp, community development projects support

Local volunteer support cost

VIN T-shirt and certificate of participation

24 hours emergency support

VIN admin cost,

What's Excluded?

Airfare, VISA, Travel medical insurance, return airport transfer, entrance fees on the world heritage sights, Personal travel and weekend activities expenses etc

Meeting point: VIN staff will pick each volunteer from the airport. The volunteers are requested to send their flight details to VIN on time so that we can send our staff with your name card and VIN's Logo.

If you want to come earlier and explore the country more, you may find pre-paid taxi at the airport or VIN may help you on that. You also can come VIN office, Balaju on the first day at the latest 12.00 midday.

Airport : Tribhuvan International Airport, Kathmandu

Leisure Activities: Either before or after your workcamp, there exists the option to undertake a short VIN-organized tour to one of Nepal's nearby attractions.

(The detail info sheet and acceptance letter will be sent from VIN after we receive your Complete Volunteer Exchange Form from the sending organization)

Places: 2

Description of Workcamp:

Background/Project:

Many parts of the communities are destroyed to dust and many lives lost their houses and properties in this earthquake. This massive earthquake not only left people poor but many people are now homeless and living in very cold and small temporary shelters. This tragic moment made VIN realize that reconstruction of houses of poor families, public properties, religious temples, and cultural heritage sites would be one of the best ideas to support the community people. After the devastating earthquake of 25th April, 2015, the situation in Nepal is desperate! VIN has been continuously involved in the Relief work dividing its relief into three phases; Rapid response / Rescue, Rehabilitation, Reconstruction & Sustainability.

VIN already completed two phases and we are now in Reconstruction & Sustainability phase. This is our long term phase. We will be working until the reconstruction completes in our earthquake affected communities. This includes education to families on WASH and construct toilets to them, Rebuilding Earthquake Resistant Infrastructure (RERI) , Earthquake Resistant Home Construction Education(REECH) and Entrepreneurship Building.

Objectives:

- ¿ To construct safe homes/toilets to the earthquake victims of the communities
- ¿ To educate on safe earthquake resistance houses/schools.
- ¿ To restore the cultural and religious sites and help to rebuild the nation
- ¿ To raise awareness and provide training on correct health and hygiene practices, to manage the waste of the community.
- ¿ To renovate, reconstruct and improve the irrigation channel, drinking water supply, roads, schools, houses or any public or private properties.
- ¿ To promote the friendship, understanding and solidarity among local young volunteers and cross-national volunteers.
- ¿ To provide opportunity to understand and appreciate the Nepalese culture and tradition or cultural immersion.

Work / Activities:

- ¿ Reconstruction and renovation of the old buildings, houses, toilets, schools, classrooms, temples, cultural heritage sites and public properties.
- ¿ Renovate, reconstruct and improve the irrigation channel, drinking water supply, roads etc
- ¿ Educate on safe earthquake resistance houses/schools.
- ¿ Raise awareness and provide training on correct health and hygiene practices, to manage the waste of the community. Conduct awareness campaigns, Training on basic health and hygiene, Garbage collection& management
- ¿ Work with local women/farmers to support in their farm in order to improve their economy and living.

(Note: The volunteers will conduct some of these activities on the need base of the community. VIN will orient each group on arrival which of those activities will be available)

Placement Support Process:

Placement Support Process:

Min Age: 18

Max Age: 30

Places: 2

Description of Workcamp: Background/Project: Okhaldhunga, District of the Himalayas - This small paradise on earth is close to Everest Region. It is located in Sagarmatha zone in the North-East part of Nepal. It is one of the beautiful places of Nepal if Okhaldhunga is viewed with sacred vision. It has numerous sights which are fascinating. VIN's Project site (Taluwa VDC, Bhadaure VDC and Thulachhap VDC) is on South-East part from the district headquarters, Okhaldhunga. From Kathmandu, the short bus route is about 250 km which is a rough trip that takes one day and takes one day. VIN has started to work at Okhaldhunga recently. VIN implements integrated approach for community development.

Because of the geographical situation, it has limited developmental activities and facilities. Unlike Kathmandu, Okhaldhunga has numbers of illiterate people. Okhaldhunga lacks proper education facility. Due to Lack of education facilities, young people move from Okhaldhunga to cities like Kathmandu or fly abroad to secure proper education. There are schools but they don't have standard education due to which they face comparative disadvantage in their academic and professional career. The existing education standard of Okhaldhunga is not good and compatible with the other community.

According to VIN's baseline survey 2012, there are only 91.56% children who have been attending school regularly, but 1.44% children are not regular in school. Similarly, 10.42% students dropout of the school. There are 2.99% families which are well aware about child rights and 20.69% families know a fair amount about child rights. But, 76.30% families know very little about child rights. Most children who drop out are involved in household work, field/farm work, households ploughing, labour in agriculture, collect grass/firewood, graze to cattle etc. They do these all because there is no good infrastructure, child friendly classes and teaching in the schools.

Workcamps will be organized with the cooperation of local community schools for community development, education and working together with local teachers/children/ villages in community development projects. Most of the schools lack basic infrastructure like school building, education material, playground and drinking water. Volunteers can make a big difference in the daily lives of these children by providing the necessities listed above and educating through fun and creative ways.

The workcamp will also involve teaching children from poor and marginalized community in the formal and non-formal schools about Basic English and Mathematics, Health and Hygiene, and Environmental protection through creative learning methods like art, music, games etc. There will also be house visits and meetings with local people as part of inter-cultural learning and to give awareness on health and hygiene. In addition, volunteers also will get a chance to take part in simple renovation work at local schools and engage in activities like painting, tree plantation, protecting from landslides etc. As part of the cultural exchange, volunteers will witness and participate in the available cultural programs with local community.

Objectives: To work for School Development and Education project and exchange the experience.

To provide unique opportunity of overall development (social, emotional, physical, mental, creativity)& provide fun-time for children aged 6-12.To promote the friendship, understanding and solidarity among local young volunteers and cross-national volunteers. To provide opportunity to understand and appreciate the Nepalese culture and tradition or cultural immersion. Paint and colour the classrooms to make it child friendly. Teach different skills to the children.

Work: Paint and decorate the class rooms. Renovate school areas, class rooms, walls etc. Teach the students Basic English and mathematics. Conduct different sessions of sports, Basic English and Mathematics, Health and Hygiene, and Environmental protection through creative learning methods like art, music, games etc.

Location: Taluwa Village Development Committee of Okhaldhunga district which is 250 km from Kathmandu. It takes one day travel by bus. A hilly and mountainous region surrounded by woods and fields.

Placement Support Process: Each volunteer is greeted and received by VIN local staff from the airport and dropped to local host family. The first day is the arrival day. The second day volunteers will receive a full day orientation at VIN office in Kathmandu. The placement orientation will cover, cultural tips, survival phrases on Nepali language, health tips, project activities preparation and about VIN. Then actual workcamp starts on from the day third. You will be always guided by a Nepali camp leader and VIN supervisors will visit you time to time for follow up support. Should you have any concerns on the workcamp, you may always call us for immediate help. During or after the workcamp, our staff will take you a half day sight-seeing to cultural heritage sites. On the last day of the workcamp, you will submit a detailed work report, fill up an exit form and sit with VIN executives for exit interview and feedback session.

Accommodation: The volunteers will stay in Kathmandu for two nights until orientation. They have to cover the accommodation for 2 nights themselves (around 10-12Euro per night). VIN provides lunch in its office. Then they will be with the host family/hostel identified by VIN in Okhaldhunga. The living facilities are simple and basic. Male and female Volunteers will share the same living area with separate rooms. There will be 2-4 persons in one room. Volunteers are required to sleep on the simple beds. Please bring your sleeping bag.

Language: Basic English should be spoken among participants

Participation Fee: The participation fee 200 Euros +60 Euro for Transportation is to be paid on your arrivals at VIN Office or upon booking the placement by PayPal or bank transfer.

Why Taluwa, Okhaldhunga and extra transportation fee:

 Beautiful Himalayan region close to Mt. Everest.

 Lacks development and basic infrastructure.

 Very needy local area waiting for development.

 Welcoming community and rich in culture.

 Simple life style and smiling people.

 Lovely environment and up and down hills.

 Takes one day (250 km) car/bus rough and paved drive from Kathmandu.

 Good and enough support from local staff and community people.

 Volunteers will fill they have really contributed for needy and poor community.

The Participation Fee Covers:

Food and Accommodation: Nepali Standard at a local host family ¿ 3 meals a day

Transportation: Airport pick- up and pick up and drop to the working community site

A half day guided sight-seeing for the world heritage site of Kathmandu

Materials for the work-camp, community development projects support

Local volunteer support cost

VIN T-shirt and certificate of participation

24 hours emergency support

VIN admin cost,

What¿s Excluded?

Airfare, VISA, Travel medical insurance, return airport transfer, entrance fees on the world heritage sights, Personal travel and weekend activities expenses etc

Meeting point: VIN staff will pick each volunteer from the airport. The volunteers are requested to send their flight details to VIN on time so that we can send our staff with your name card and VIN¿s Logo.

If you want to come earlier and explore the country more, you may find pre-paid taxi at the airport or VIN may help you on that. You also can come VIN office, Balaju on the first day at the latest 12.00 midday.

Airport : Tribhuvan International Airport, Kathmandu

Leisure Activities: Either before or after your workcamp, there exists the option to undertake a short VIN-organized tour to one of Nepal¿s nearby attractions.

Note: We will organize this Workcamp to another community close to Kathmandu if we receive less than 10 participants.

(The detail info sheet and acceptance letter will be sent from VIN after we receive your Complete Volunteer Exchange Form from the sending organization)

**Description of
Workcamp:**

Project Background: Nepal is an agricultural country. About 80% of the people's occupation is agriculture. Trade is also mainly of agricultural products. Agriculture provides raw materials for the industries. With the help of good manure, seeds, equipment and irrigation the growth of crops is increased in large quantity. Agriculture is known as the backbone of economy of Nepal. Agriculture occupation consists of three types: food crops, cash crops and mixed crops. Beside this, there are Livestock, Horticulture and Fishery.

VIN's Multi-Purpose Farm (MPF) concept is based on low-external inputs and sustainable farming practices, which allow farmers to integrate different technical elements into the MPF system. It will support to produce crops for both, home consumption and cash income generation. Adopting diversified agricultural activities, mono-cropping (rice or maize or wheat or millet) fields converts into integrated farms, which included fish ponds, fruit trees, cash crops, vegetable gardens and domestic animal husbandry.

It is a five-year plan in Taluwa community, and is in partnership with local youths, which we aim to develop as a teaching farm to the villagers. Modern technologies will be used and it will be developed and become a complete Multi purpose farm in five years. Modern and proved agricultural techniques will be adapted to the particular situation of the project site and specific farm layouts, species composition, cropping patterns and cultivation techniques will be introduced and monitored following the technical advice of agricultural technicians.

In Nepal agriculture is the main source of income of the people. However farmers are unaware about modern technology and multiple farms. A group of youth and women are migrating to other countries for labour. There is a big force of unemployed youth in the country. The main aim of the multiple farming is to provide opportunity to youth to get involved into the project. It will enhance the entrepreneurship skills among youth and women on agriculture.

Objectives

To train local people in the fields of agricultural management, entomology, disease control, organic farming, marketing, farming techniques, irrigation and plant nutrition etc.

To establish a model MPF in Taluwa, Okhaldhunga

To develop social entrepreneurs and run enterprises in rural Nepal

To reduce youth migration for Labour to other countries

To support earthquake victims.

Work/activities

Train local people in the fields of agricultural management, entomology, disease control, organic farming, marketing, farming techniques, irrigation and plant nutrition etc.

Create mass awareness about the hazards of chemical pesticides so as to aware other farmers in the community into organic production.

Involve and work with Multi-purpose Farming group or the local women's/farmer's group in food crops, cash crops, mixed crops, livestock, horticulture and fishery etc

horticulture and fishery etc.

Train/work with the local communities on Vermi composting and composting; Low cost irrigation; Fodder cultivation and management; Organic farming etc.

Location: Taluwa Village Development Committee of Okhaldhunga district which is 250 km from Kathmandu. It takes one day travel by bus. A hilly and mountainous region (Everest Region) surrounded by woods and fields.

Placement Support Process: Each volunteer is greeted and received by VIN local staff from the airport and dropped to local host family. The first day is the arrival day. The second day volunteers will receive a full day orientation at VIN office in Kathmandu. The placement orientation will cover, cultural tips, survival phrases on Nepali language, health tips, project activities preparation and about VIN. Then actual workcamp starts on from the day third. Description of Workcamp:

Project Background: Nepal is an agricultural country. About 80% of the people's occupation is agriculture. Trade is also mainly of agricultural products. Agriculture provides raw materials for the industries. With the help of good manure, seeds, equipment and irrigation the growth of crops is increased in large quantity. Agriculture is known as the backbone of economy of Nepal. Agriculture occupation consists of three types: food crops, cash crops and mixed crops. Beside this, there are Livestock, Horticulture and Fishery.

VIN's Multi-Purpose Farm (MPF) concept is based on low-external inputs and sustainable farming practices, which allow farmers to integrate different technical elements into the MPF system. It will support to produce crops for both, home consumption and cash income generation. Adopting diversified agricultural activities, mono-cropping (rice or maize or wheat or millet) fields converts into integrated farms, which included fish ponds, fruit trees, cash crops, vegetable gardens and domestic animal husbandry.

It is a five-year plan in Taluwa community, and is in partnership with local youths, which we aim to develop as a teaching farm to the villagers. Modern technologies will be used and it will be developed and become a complete Multi purpose farm in five years. Modern and proved agricultural techniques will be adapted to the particular situation of the project site and specific farm layouts, species composition, cropping patterns and cultivation techniques will be introduced and monitored following the technical advice of agricultural technicians.

In Nepal agriculture is the main source of income of the people. However farmers are unaware about modern technology and multiple farms. A group of youth and women are migrating to other countries for labour. There is a big force of unemployed youth in the country. The main aim of the multiple farming is to provide opportunity to youth to get involved into the project. It will enhance the entrepreneurship skills among youth and women on agriculture.

Objectives

To train local people in the fields of agricultural management, entomology, disease control, organic farming, marketing, farming techniques, irrigation and plant nutrition etc.

To establish a model MPF in Taluwa, Okhaldhunga

To develop social entrepreneurs and run enterprises in rural Nepal

To reduce youth migration for Labour to other countries

To support earthquake victims.

Work/activities

Train local people in the fields of agricultural management, entomology, disease control, organic farming, marketing, farming techniques, irrigation and plant nutrition etc.

Create mass awareness about the hazards of chemical pesticides so as to aware other farmers in the community into organic production.

Involve and work with Multi-purpose Farming group or the local women's/farmer's group in food crops, cash crops, mixed crops, livestock, horticulture and fishery etc

horticulture and fishery etc.

Train/work with the local communities on Vermi composting and composting; Low cost irrigation; Fodder cultivation and management; Organic farming etc.

Location: Taluwa Village Development Committee of Okhaldhunga district which is 250 km from Kathmandu. It takes one day travel by bus. A hilly and mountainous region (Everest Region) surrounded by woods and fields.

Placement Support Process: Each volunteer is greeted and received by VIN local staff from the airport and dropped to local host family. The first day is the arrival day. The second day volunteers will receive a full day orientation at VIN office in Kathmandu. The placement orientation will cover, cultural tips, survival phrases on Nepali language, health tips, project activities preparation and about VIN. Then actual workcamp starts on from the day third. You will be always guided by a Nepali camp leader and VIN supervisors will visit you time to time for follow up support. Should you have any concerns on the workcamp, you may always call us for immediate help. During or after the workcamp, our staff will take you a half day sight-seeing to cultural heritage sites. On the last day of the workcamp, you will submit a detailed work report, fill up an exit form and sit with VIN executives for exit interview and feedback session.

Accommodation: The volunteers will stay in Kathmandu for two nights until orientation. They have to cover the accommodation for 2 nights themselves (around 10-12Euro per night). VIN provides lunch in its office. Then they will be with the host family/hostel identified by VIN in Okhaldhunga. The living facilities are simple and basic. Male and female Volunteers will share the same living area with separate rooms. There will be 2-4 persons in one room. Volunteers are required to sleep on the simple beds. Please bring your sleeping bag.

Language: Basic English should be spoken among participants

Participation Fee: The participation fee 200 +60 (for transportation) Euros is to be paid on your arrivals at VIN Office or upon booking the placement by Paypal or bank transfer.

Why Taluwa, Okhaldhunga and extra transportation fee:

 Beautiful Himalayan region close to Mt. Everest.

 Lacks development and basic infrastructure.

 Very needy local area waiting for development.

 Welcoming community and rich in culture.

 Simple life style and smiling people.

 Lovely environment and up and down hills.

 Takes one day (250 km) car/bus rough and paved drive from Kathmandu.

 Good and enough support from local staff and community people.

 Volunteers will fill they have really contributed for needy and poor community.

The Participation Fee Covers:

Food and Accommodation: Nepali Standard at a local host family & 3 meals a day

Transportation: Airport pick- up and pick up and drop to the working community site

A half day guided sight-seeing for the world heritage site of Kathmandu

Materials for the work-camp, community development projects support

Local volunteer support cost

VIN T-shirt and certificate of participation

24 hours emergency support

VIN admin cost,

What's Excluded?

Airfare, VISA, Travel medical insurance, return airport transfer, entrance fees on the world heritage sights, Personal travel and weekend activities expenses etc

Meeting point: VIN staff will pick each volunteer from the airport. The volunteers are requested to send their flight details to VIN on time so that we can send our staff with your name card and VIN's Logo.

If you want to come earlier and explore the country more, you may find pre-paid taxi at the airport or VIN may help you on that. You also can come VIN office, Balaju on the first day at the latest 12.00 midday.

Airport : Tribhuwan International Airport, Kathmandu

Leisure Activities: Either before or after your workcamp, there exists the option to undertake a short VIN-organized tour to one of Nepal's nearby attractions.

Note: We will organize this Workcamp to another community close to Kathmandu if we receive less than 10 participants.

(The detail info sheet and acceptance letter will be sent from VIN after we receive your Complete Volunteer Exchange Form from the sending organization)

Description of Workcamp:

Background/Project: Child Development is one of the major programs of VIN's Integrated Community Development Approach. Goal of the Children development program is to protect the rights of all children in the community by providing them with access to basic quality education, developing their life skills & providing access to health services through community health program. VIN has different projects in children development program such as Children's Clubs (CC), Early Childhood Development (ECD) School Attendance Project (SAP) and Orphanage. VIN welcomes volunteers from across the globe so as to assimilate the children with the latest teaching methodology and way of providing care. Workcamps will be organized with the cooperation of local community schools for community development, education and working together with local teachers/children/ villages in community development projects. Most of the schools around Okharpawa and Jitpur lack basic infrastructure like school building, education material, playground and drinking water. Volunteers can make a big difference in the daily lives of these children by providing the necessities listed above and educating through funny ways.

The workcamp will also involve teaching children from poor and marginalized community in the formal and non-formal schools about Basic English and Mathematics, Health and Hygiene, and Environmental protection through creative learning methods like art, music, games etc. There will also be house visits and meetings with local people as part of inter-cultural learning and to give awareness on health and hygiene. In addition, volunteers also will get a chance to take part in simple renovation work at local schools and engage in activities like painting, tree plantation, protecting from landslides etc. As part of the cultural exchange, volunteers will witness and participate in the available cultural programs with local community.

Objectives: To work for Children development project and exchange the experience, paint and colour the classrooms to make it child friendly, teach different skills to the children.

Work: Conduction of session on experience sharing, creative writing, Child Rights, community drama etc. Teach basic English and Mathematics, Develop some infrastructure of the schools, Renovate library classrooms, school compound wall etc. Assist Early childhood Development (ECD) teacher for caring & teaching ECD kids, Orientation of parents on good parenting for Early Childhood Development, Renovating and constructing earthquake affected schools, Painting and Decoration of classrooms with locally available materials

Location:

1. Tarakeshwor : Tarakeshwor municipality lies on Kathmandu District. It is around 10-15 km from main ring road to Balaju, Kathmandu covered with hills, fields and woods.

Project: EDU-SOCI - Educational-Social project

Initial Date: 13/08/2016

Final Date: 25/08/2016

Min Age: 18

Max Age: 30

Places: 2

Description of Workcamp:

Background/Project: Youth development is an unconditional posture for nation building as the strength of future development of a nation depends solely upon it. The future of any country is always predicated on its present youth productive force.

The United Nations recognizes youth as the age group of people between 15 to 24 years of age, the Ninth plan of Nepal has mentioned the age group of 15-29 and, recently, National Youth policy has considered youth as the age group of people between 16-40 years of age. According to this National Youth Policy all Nepali citizens aging 16-40 years shall be treated as youth.

In Nepal, youths constitutes 38 percent of the total population of Nepal. More than 3 million youths are working as migrant workers in countries except India. The number of migrant Nepalese working in India is even larger. The reasons behind migration are almost same in Nepal as in other parts of the world. Poverty, limited employment opportunities, deteriorating agricultural productivity, and armed conflict are some of the motives behind international labour migration. According to statistics, about 400,000 youths hit the employment market every year. The major problems faced by the youths of Nepal could be many. Some of them are, Different types of Unemployment, Less scope for self-employment, Poor Practical education, Incompletion of formal education, Involvement in antisocial activities, including AIDS and drug addiction, Unawareness in health care, Imbalanced education and training, Inadequate opportunities for participation in public decision-making, Inadequate facilities for recreation and creative work, Alcoholism and drug dependence, Less knowledge about modern technology, Inefficiency in IT, Absence of conducive environment of sports and games, Lack of sense of accountability and responsibility to family and society, Moral degradation, Less aware about their rights

The situation of youths is different in accordance with social, economic and geographical context. There is difference between the youths in urban and rural areas in terms of their access to services, facilities and resources. The youths of the rural areas have very limited resources, means and opportunities.

Objectives:

- ¿ To promote a culture and solidarity among the participants.
- ¿ To inspire and equip young people in the local community to learn and succeed through interaction and activities.
- ¿ To stimulate entrepreneurial thinking amongst young people
- ¿ To help young people become enterprising - help them establish business and social enterprises in the community
- ¿ To enhance leadership skills and increase community awareness
- ¿ To enhance the educational experience and exchange the ideas, sports among the participants.
- ¿ To promote volunteerism in the community through different activities.

Work: Organize some sports, interaction, IT classes or any other social activities. Manual and educational volunteering work.

Project: ENVI-EDU - Environmental - Educational

Initial Date: 20/08/2016

Final Date: 31/08/2016

Min Age: 18

Max Age: 30

Places: 2

Description of Workcamp:

Background/Project: Nepal is a beautiful mountainous country. More than 80 % of the population live in rural areas with over 35% of the population living below the poverty line. Access to proper health and sanitation facilities is often very limited and awareness of correct hygiene practices is low. Only 46% of the population has access to toilets, leaving 54% to practice open-air defecation.

Due to lack of awareness, the community site has to deal with environmental problems such as water pollution, air pollution, noise pollution, solid waste management, open defecation etc. Recognising these concerns, VIN organises camps to address these environmental and educational issues. It focuses on Workcamps/ short-term projects which include environmental protection, tree planting, working along with local partners and community people to spread health and hygiene awareness among the community people. The work will vary largely in the camps and will include some simple physical work.

The implementation of the Total Sanitation Project is expected to generate a significant improvement in the health and sanitation conditions of the community and protect the environment as a reduction in the occurrence of sickness within the community and an improved quality of life.

Our aim through this project is to construct toilets, create awareness among the people and to give them more instruments to feel confident and feel free to decide for their future, and for the future of a new generation. VIN cooperates with several local partners in assisting various government schools by creating awareness about the environment; health and hygiene; working with local schools in teaching basic English through creative learning methods; simple renovation activities like painting, cleaning or constructing toilets, tree planting etc.

Objectives: To construct toilets to the needy households, To involve the community and sensitize community/people about the Environment, Health & Hygiene problems, To educate and raise awareness on environmental issues to children and villagers. To collect garbage and educate on garbage management.

Work: Construction, education and awareness raising.
